

**We offer Marketplace for Restaurants,
Coffee Shops and small Retails
Business, not just Sales but Marketing
And Social Media.**

Our Opportunities

Problems worth Solving

Small business cannot afford expensive Internet Cost and Lack Professional Helps.

Our Solution

Build an internet Marketplace for Small business to marketing, managing and Selling their Products.

Targeting Market

According to the magazine *Chinese Restaurant News*, there are nearly 41,000 Chinese restaurants in the United States, three times the number of McDonalds franchise units (and at \$17 billion in annual sales, at a par with the gargantuan hamburger chain). Beyond those, Coffee Shops, Small Retails Stores are also our first targets.

Sales and Marketing

Sales Channels

Through paid services such as voice order mobile app, online orders and payment processing etc.

Marketing Activities

Web based Marketplace for Consumers to receive coupons, promotions and Business owners to manage their products, payments and marketing.

Financial Projections
